

s.42

1/2" - 3" solder-ends ball valve

PLUMBING

Quality

- 24h 100% seal test guaranteed
- Dual sealing system allows valve to be operated in either direction making installation easier
- No metal-to-metal moving parts .
- Handle clearly shows ball position
- Silicone-free lubricant on all seals
- Chrome plated brass ball for longer life .
- Handle stops on body to avoid stress at stem •

Body

- Hot forged sand blasted, unplated brass body and cap sealed with Loctite® • or equivalent thread sealant
- Finest brass according to EN 12165 and EN 12164 specifications

Stem

- Blowout-proof nickel plated brass stem
- Pure PTFE adjustable packing gland and reinforced washer for lower torque and easy maintenance

Sealing

Pure PTFE self-lubricating seats with flexible-lip design

Connections

Solder end female by female connections

Flow

• Full port to DIN 3357 for maximum flow

Handle

- Geomet® carbon steel handle with thick PVC dip coating. Handle coating offers both thermal and electrical protection
- WARNING: do not exceed reasonable temperature and/or electrical load

Working pressure & temperature

- 600 PSI (40 bar) up to 2", 450 PSI (30 bar) over 2", (150 WSP / -10 bar all sizes) non-shock cold working pressure
- NOTE: for solder joints ratings see Table 1 on reverse
- 250 PSI (17 bar) non-shock working pressure for LP-Gas
- . *150 psig (10 bar) non-shock working steam pressure. Not suitable for throttling steam.
- -4°F to +366°F (-20°C to + 170 °C) (for solder joints ratings see Table 1 on reverse)
- WARNING: freezing of the fluid in the installation may severely damage the valve

Options up to 2" size

- Stem extension (assemble after soldering)
- Lead free for safe drinking water (0.25% or less Pb)
- Patented locking device for valves up to 3"
- T-handle
- Stubby handle

Upon request

- Stainless steel ball and/or stem (1.4401 / AISI 316)
- Glass filled PTFE seals
- Stainless steel handle (1.4016 / AISI 430)
- Custom design

Approved by or in compliance with

GOST-R (Russia)

RoHS Compliant (EU)

Underwriters Laboratories (United States, Canada):

- Guide YSDT: LP-Gas shut-off valve
- Guide YRBX: Flammable liquid shut-off valve
- Guide YRPV: Gas shut-off valve for use with natural and manufactured gases - Guide MHKZ: No. 6 oil at 250°F
- Meeting WW-V-35C Federal U.S. Specification (United States) CRN-TSSA acc. to MSS SP110 (Canada)

NOTE: approvals apply to specific configurations/sizes only.

- Oval lockable handle up to 2", round over 2"
- .

1.1/4"- 2" hollow ball

Note:

Above stated limits are not imposed by the valve, but bythe strength of the soldering joint according to ASME B16.22.

 \ast This alloy contains more than 0,2% lead and, according to certain specifications, cannot be used for potable water or other foods.

** Soldered copper tube joints have been tested at 230 psi (1600 kPa) in accordance with ISO 2016
